Changed new logic like user can add address him self or can make address for others also when we click on Add address button form will load in same page of checkout page and also changed the gst logic in order summary

Added Arattai api link so we have to paste your user id link of arattai in setting module from admin I have given input field like arattai user id there you need to paste the link if anybody click on arattai link it will redirect to the arattai your userid

Added this dynamic we can change the title and data from admin panel named the module is Shipping card dynamic below is the module from admin panel

## **Minimal changes**

1. Added print and cancel button to print the page in admin invoice and client invoice and pack slip invoice also added the product sku code column
2. Changed color with Black where it has red or other colors done this in cart page and checkout page
3. Added important notice message in checkout page below the header
4. Changed the add to cart button with color change as per client
5. Added headline in cart and checkout page
- 6.
